

ANTI RUST 25 2

Product code: 265200801

Oily film anticorrosive agent

This product is a general high-quality oil-based rust preventive which forms a thin oily film that gives long term protection to ferrous and non-ferrous metals.

It is designed for applications where protection is required during indoor storage for periods of 6 to 12 months. Typical applications include:

- Protection of finished machine components prior to packaging
- Steel sheets, profiles and rolled strips
- Industrial motors
- Car and truck engines
- Inter-operational protection of finished machined or ground metal surfaces such as valves, rollers and fasteners
- Protection of parts during storage where a thin oily film is required

Benefits & Advantages

- High anticorrosive capacity
- Compatibility with lubricating oils
- Easy removal
- High coating capacity
- Free of barium and solvents

Typical Performance Data

Typical	Value
Appearance	Light brown
Specific gravity @ 20 °C, gr/cm ³	0.88
Viscosity @ 40 °C, cSt	12-15
Flash point, °C	<130
Indoor protection (months)	6-12

All performance data on this Technical Data Sheet are indicative only and can vary during production

Use

Can be applied by brushing, dipping or spraying at room temperature. Removal by alkaline or solvent based degreasers.
