SPRAYABLE ADHESIVE

Product Code
826186

Industrial Spraycans

GLUE

Sprayable Adhesive

This product is a high quality adhesive ideal for a wide range of materials for both permanent and temporary adhesion. Suitable to glue paper, cardboard, wood, textile and various types of plastic.

This product can be used with different types of materials, such as paper, wood, cork various types of plastic, cardboard, textile, leather, thin metals and more.

Suitable to glue large surfaces, fast drying, user-friendly.

e 400ml

Typical Performance Data

Typical	Value
Base	Synthetic resin
VOC content, % w/w	83
Colour	Transparent White
Odour	Characteristic
Density @ 20 °C, g/ml	0.75
Heat resistant, °C	Up to 80

How to use:

The surface should be clean, dry and free of grease and oil. The aerosol should have room temperature. Before use, shake the aerosol. Distance to the surface to be treated approximately 25 to 30 centimeters. Apply glue in an equal layer. For a permanent adhesion, treat both parts to be glued, allow to dry 15 to 20 minutes and firmly press together. For a temporary adhesion, treat one of the parts to be glued, allow to dry for 5 to 10 minutes and firmly press together. When treating porous surfaces, apply several layers.

All performance data on this Technical Data Sheet are indicative only and can vary during production.
